

TED STEVENS CENTER FOR ARCTIC SECURITY STUDIES

United States Department of War
Joint Base Elmendorf- Richardson

ABOUT US

The Ted Stevens Center for Arctic Security Studies (TSC) strengthens national, allied, and partner capabilities by cultivating regional expertise, building durable networks, and generating actionable insight for the warfighter. TSC is the Department of War's premier institution dedicated to Arctic-focused education, engagement, and research, empowering today's practitioners and preparing tomorrow's strategic leaders.

THE TED STEVENS CENTER EXPERIENCE

LCDR SAMUEL KRAKOWER

"Our Fellowships at TSC will make us better officers attuned to the security needs of the Arctic region, with each of us returning to our respective services prepared to lead our service members in the high north."

LCDR Samuel Krakower, USCG, 2025 Arctic Military Fellow

EDUCATION

DECISION ADVANTAGE THROUGH KNOWLEDGE

Equipping practitioners with the knowledge and skills needed to operate effectively and outpace the adversary in the harshest environment on earth.

OFFERINGS

- Over ten unique courses tailored to Arctic security and defense practitioners
- Scenario-based learning and tabletop exercises that prepare leaders for real-world decision-making
- Arctic Military Fellows Program develops the next generation of leaders through an accredited Master's degree
- Executive-level primers deliver essential Arctic security knowledge to senior leaders in a condensed, high-impact format

ENGAGEMENT

STRATEGIC ADVANTAGE THROUGH PARTNERSHIPS

Building a trusted network across the joint force, U.S. government, and unified allied Arctic to augment our capability and support U.S. interests from the Bering Straits to the Barents and Baltic Sea.

OPPORTUNITIES

- The annual Anchorage Security and Defense Dialogue strengthens relationships that underpin deterrence and shared security
- Regional Security Dialogues connect practitioners across four distinct Arctic subregions
- Field Workshops facilitate the sharing of best practices across the allied Arctic to improve readiness, resilience, and cohesion
- Digital programs provide the latest Arctic insights on the go

RESEARCH

OPERATIONAL ADVANTAGE THROUGH ANALYSIS

Delivering insights that inform strategy, shape policy, and enhance Arctic operations to compete and win.

PRODUCTS

- The Defense Readiness and Arctic Risk Program analyzes emerging threats and capabilities across all domains
- Additional research programs support DoW decision-makers with timely, mission-relevant analysis
- The Journal of Arctic Security (JAS) advances analysis among experts, scholars, and practitioners
- TSC serves as the US Principal and Multinational Chair for the International Cooperation Program for Polar Research/Situational Awareness Working Group (SAWG)
